Drug and Alcohol Dependence, 32 (1993) 293–296
Elsevier Scientific Publishers Ireland Ltd.

DRUG AND ALCOHOL DEPENDENCE

SUBJECT INDEX

Volume 32 (1993)

abuse liability, propofol, general anesthetic, mood, subjective effects, memory, psychomotor performance, 45
acquisition, cocaine, oral route, fading procedure, concurrent schedules, self-administration, rhesus monkeys, 143
alcohol, benzodiazepines, matching-to-sample, stimulus discrimination, performance, 219
alcohol, cue-reactivity, craving, inpatients, 169
alcohol, withdrawal, cytosolic free Ca^{2+} concentration, blood mononuclear cells, 107
alcohol-deprivation effect, saccharin, menthol, mice, 187
alcoholism, methadone maintenance, blood alcohol level, clinic absenteeism, MAST, 113
alprazolam, benzodiazepines, barbiturates, sedatives, methadone maintenance, drug abuse, diazepam, lorazepam, 257
antibodies, morphine, ELISA, opiate addiction, 59
anticholinergic drugs, Brazil, drug abuse, 1
antinociception, calcium antagonists, BAYK 8644, nicotine, mice, 73
anxiolytics, tandospirone, physical dependence, drug self-administration, drug discrimination, serotonin, baboons, buspirone, triazolam, 195

baboons, tandospirone, physical dependence, drug self-administration, drug discrimination, anxiolytics, serotonin, buspirone, triazolam, 195
barbiturates, benzodiazepines, sedatives, methadone maintenance, drug abuse, diazepam, alprazolam, lorazepam, 257
BAYK 8644, calcium antagonists, nicotine, antinociception, mice, 73
behavior, ethanol, cocaine, marijuana, subjective effects, performance, drug interaction, humans, 93
behavioral treatments, cocaine dependence, intravenous drug use, route of administration, hepatitis, outpatient treatment, 133
benzodiazepines, barbiturates, sedatives, methadone maintenance, drug abuse, diazepam, alprazolam, lorazepam, 257
benzodiazepines, heroin addiction, flunitrazepam, clorazepate, diazepam, 281
benzodiazepines, matching-to-sample, alcohol, stimulus discrimination, performance, 219
benzodiazepines, withdrawal symptoms, poly drug users, 15
blood alcohol level, methadone maintenance, alcoholism, clinic absenteeism, MAST, 113
blood mononuclear cells, alcohol, withdrawal, cytosolic free Ca^{2+} concentration, 107
Brazil, anticholinergic drugs, drug abuse, 1
buspirone, tandospirone, physical dependence, drug self-administration, drug discrimination, anxiolytics, serotonin, baboons, triazolam, 195

caffeine, dependence, reinforcement, self-administration, withdrawal, 239
calcium antagonists, BAYK 8644, nicotine, antinociception, mice, 73
caudate-putamen, GBR 12909, cocaine, dopamine, striatum, synaptosomes, 65
characteristics, women, dependence, treatment, outcome, 81
cirrhosis, isolated hepatocytes, colchicine, lactate production, fibrosis, 181
clinic absenteeism, methadone maintenance, alcoholism, blood alcohol level, MAST, 113
clorazepate, heroin addiction, benzodiazepines, flunitrazepam, diazepam, 281
cocaine abuse, methadone maintenance, polydrug use, 267
cocaine abuse, neuropsychology, cognition, 231
cocaine dependence, intravenous drug use, route of administration, behavioral treatments, hepatitis, outpatient treatment, 133
cocaine, acquisition, oral route, fading procedure, concurrent schedules, self-administration, rhesus monkeys, 143
cocaine, ethanol, marijuana, behavior, subjective effects, performance, drug interaction, humans, 93
cocaine, GBR 12909, dopamine, caudate-putamen, striatum, synaptosomes, 65
cocaine, tolerance, self-administration, multi-dose, rat, 247
cocktails, temazepam, opioid, Glasgow, injectors, 277
cognition, neuropsychology, cocaine abuse, 231
colchicine, isolated hepatocytes, lactate production, fibrosis, cirrhosis, 181
concurrent schedules, cocaine, acquisition, oral route, fading procedure, self-administration, rhesus monkeys, 143
craving, alcohol, cue-reactivity, inpatients, 169
crime of gain, drug abuse, heroin sale, informal economy, 287

cue-reactivity, alcohol, craving, inpatients, 169
custody, injecting drug users, HIV/AIDS risk behaviour, prison, 9
cytosolic free Ca^{2+} concentration, alcohol, withdrawal, blood mononuclear cells, 107

dependence, morphine, naloxone, jumping, 163
dependence, caffeine, reinforcement, self-administration, withdrawal, 239
dependence, women, treatment, characteristics, outcome, 81
diagnostic interview schedule, substance use, resident doctors, Venezuela, 127
diazepam, benzodiazepines, barbiturates, sedatives, methadone maintenance, drug abuse, alprazolam, lorazepam, 257
diazepam, heroin addiction, benzodiazepines, flunitrazepam, clorazepate, 281
dopamine receptor function, long-term abstinent alcoholics, 159
dopamine, GBR 12909, cocaine, caudate-putamen, striatum, synaptosomes, 65
drinking contexts, drinking patterns, drinking problems, drug use frequency, treatment modality, drinking motivations, 25
drinking motivations, drinking patterns, drinking problems, drug use frequency, treatment modality, drinking contexts, 25
drinking patterns, drinking problems, drug use frequency, treatment modality, drinking contexts, drinking motivations, 25
drinking problems, drinking patterns, drug use frequency, treatment modality, drinking contexts, drinking motivations, 25
drug abuse, anticholinergic drugs, Brazil, 1
drug abuse, benzodiazepines, barbiturates, sedatives, methadone maintenance, diazepam, alprazolam, lorazepam, 257
drug abuse, heroin sale, informal economy, crime of gain, 287
drug cues, exposure, extinction, relapse-prevention, habituation, 209
drug discrimination, tandospirone, physical dependence, drug self-administration, anxiolytics, serotonin, baboons, buspirone, triazolam, 195
drug interaction, ethanol, cocaine, marijuana, behavior, subjective effects, performance, humans, 93
drug self-administration, tandospirone, physical dependence, drug discrimination, anxiolytics, serotonin, baboons, buspirone, triazolam, 195
drug use frequency, drinking patterns, drinking problems, treatment modality, drinking contexts, drinking motivations, 25
DSM-III-R diagnosis, smoking, nicotine dependence, racial difference, 119

ELISA, morphine, antibodies, opiate addiction, 59
ethanol, cocaine, marijuana, behavior, subjective effects, performance, drug interaction, humans, 93
exposure, extinction, relapse-prevention, habituation, drug cues, 209
extinction, exposure, relapse-prevention, habituation, drug cues, 209

fading procedure, cocaine, acquisition, oral route, concurrent schedules, self-administration, rhesus monkeys, 143
fibrosis, isolated hepatocytes, colchicine, lactate production, cirrhosis, 181
flunitrazepam, heroin addiction, benzodiazepines, clorazepate, diazepam, 281

GBR 12909, cocaine, dopamine, caudate-putamen, striatum, synaptosomes, 65
general anesthetic, propofol, mood, subjective effects, memory, psychomotor performance, abuse liability, 45
Glasgow, temazepam, opioid, cocktails, injectors, 277

habituation, exposure, extinction, relapse-prevention, drug cues, 209
hepatitis, cocaine dependence, intravenous drug use, route of administration, behavioral treatments, outpatient treatment, 133
heroin addiction, benzodiazepines, flunitrazepam, clorazepate, diazepam, 281
heroin sale, drug abuse, informal economy, crime of gain, 287
HIV/AIDS risk behaviour, injecting drug users, custody, prison, 9
humans, ethanol, cocaine, marijuana, behavior, subjective effects, performance, drug interaction, 93

informal economy, drug abuse, heroin sale, crime of gain, 287
injecting drug users, HIV/AIDS risk behaviour, custody, prison, 9
injectors, temazepam, opioid, cocktails, Glasgow, 277
inpatients, alcohol, cue-reactivity, craving, 169
intravenous drug use, cocaine dependence, route of administration, behavioral treatments, hepatitis, outpatient treatment, 133
isolated hepatocytes, colchicine, lactate production, fibrosis, cirrhosis, 181

jumping, morphine, dependence, naloxone, 163

lactate production, isolated hepatocytes, colchicine, fibrosis, cirrhosis, 181
long-term abstinent alcoholics, dopamine receptor function, 159
lorazepam, benzodiazepines, barbiturates, sedatives, methadone maintenance, drug abuse, diazepam, alprazolam, 257

marijuana, ethanol, cocaine, behavior, subjective effects, performance, drug interaction, humans, 93

MAST, methadone maintenance, alcoholism, blood alcohol level, clinic absenteeism, 113
matching-to-sample, benzodiazepines, alcohol, stimulus discrimination, performance, 219
memory, propofol, general anesthetic, mood, subjective effects, psychomotor performance, abuse liability, 45
menthol, alcohol-deprivation effect, saccharin, mice, 187
methadone maintenance, alcoholism, blood alcohol level, clinic absenteeism, MAST, 113
methadone maintenance, benzodiazepines, barbiturates, sedatives, drug abuse, diazepam, alprazolam, lorazepam, 257
methadone maintenance, cocaine abuse, polydrug use, 267
mice, alcohol-deprivation effect, saccharin, menthol, 187
mice, calcium antagonists, BAYK 8644, nicotine, antinociception, 73
mood, propofol, general anesthetic, subjective effects, memory, psychomotor performance, abuse liability, 45
morphine, antibodies, ELISA, opiate addiction, 59
morphine, dependence, naloxone, jumping, 163
multi-dose, cocaine, tolerance, self-administration, rat, 247

naloxone, morphine, dependence, jumping, 163
neuropsychology, cocaine abuse, cognition, 231
nicotine dependence, smoking, DSM-III-R diagnosis, racial difference, 119
nicotine, calcium antagonists, BAYK 8644, antinociception, mice, 73

opiate addiction, morphine, antibodies, ELISA, 59
opioid, temazepam, cocktails, Glasgow, injectors, 277
oral route, cocaine, acquisition, fading procedure, concurrent schedules, self-administration, rhesus monkeys, 143
outcome, women, dependence, treatment, characteristics, 81
outpatient treatment, cocaine dependence, intravenous drug use, route of administration, behavioral treatments, hepatitis, 133

performance, benzodiazepines, matching-to-sample, alcohol, stimulus discrimination, 219
performance, ethanol, cocaine, marijuana, behavior, subjective effects, drug interaction, humans, 93
physical dependence, tandospirone, drug self-administration, drug discrimination, anxiolytics, serotonin, baboons, buspirone, triazolam, 195
poly drug users, benzodiazepines, withdrawal symptoms, 15
polydrug use, cocaine abuse, methadone maintenance, 267
pregnancy anxiety, substance abuse, pregnant women, social support, 37
pregnant women, substance abuse, social support, pregnancy anxiety, 37
prison, injecting drug users, HIV/AIDS risk behaviour, custody, 9
propofol, general anesthetic, mood, subjective effects, memory, psychomotor performance, abuse liability, 45
psychomotor performance, propofol, general anesthetic, mood, subjective effects, memory, abuse liability, 45

racial difference, smoking, nicotine dependence, DSM-III-R diagnosis, 119
rat, cocaine, tolerance, self-administration, multi-dose, 247
reinforcement, caffeine, dependence, self-administration, withdrawal, 239
relapse-prevention, exposure, extinction, habituation, drug cues, 209
resident doctors, substance use, Venezuela, diagnostic interview schedule, 127
rhesus monkeys, cocaine, acquisition, oral route, fading procedure, concurrent schedules, self-administration, 143
route of administration, cocaine dependence, intravenous drug use, behavioral treatments, hepatitis, outpatient treatment, 133

saccharin, alcohol-deprivation effect, menthol, mice, 187
sedatives, benzodiazepines, barbiturates, methadone maintenance, drug abuse, diazepam, alprazolam, lorazepam, 257
self-administration, caffeine, dependence, reinforcement, withdrawal, 239
self-administration, cocaine, acquisition, oral route, fading procedure, concurrent schedules, rhesus monkeys, 143
self-administration, cocaine, tolerance, multi-dose, rat, 247
serotonin, tandospirone, physical dependence, drug self-administration, drug discrimination, anxiolytics, baboons, buspirone, triazolam, 195
smoking, nicotine dependence, DSM-III-R diagnosis, racial difference, 119
social support, substance abuse, pregnant women, pregnancy anxiety, 37
stimulus discrimination, benzodiazepines, matching-to-sample, alcohol, performance, 219
striatum, GBR 12909, cocaine, dopamine, caudate-putamen, synaptosomes, 65
subjective effects, ethanol, cocaine, marijuana, behavior, performance, drug interaction, humans, 93
subjective effects, propofol, general anesthetic, mood, memory, psychomotor performance, abuse liability, 45
substance abuse, pregnant women, social support, pregnancy anxiety, 37
substance use, resident doctors, Venezuela, diagnostic interview schedule, 127
synaptosomes, GBR 12909, cocaine, dopamine, caudate-putamen, striatum, 65

tandospirone, physical dependence, drug self-administration, drug discrimination, anxiolytics, serotonin, baboons, buspirone, triazolam, 195
temazepam, opioid, cocktails, Glasgow, injectors, 277
tolerance, cocaine, self-administration, multi-dose, rat, 247
treatment modality, drinking patterns, drinking problems, drug use frequency, drinking contexts, drinking motivations, 25

treatment, women, dependence, characteristics, outcome, 81
triazolam, tandospirone, physical dependence, drug self-administration, drug discrimination, anxiolytics, serotonin, baboons, buspirone, 195

Venezuela, substance use, resident doctors, diagnostic interview schedule, 127
withdrawal symptoms, benzodiazepines, poly drug users, 15
withdrawal, alcohol, cytosolic free Ca^{2+} concentration, blood mononuclear cells, 107
withdrawal, caffeine, dependence, reinforcement, self-administration, 239
women, dependence, treatment, characteristics, outcome, 81
